LOVE'S WITNESS

Whether near or far, like a distant star
Or simply at a distance
I always seem to find myself
Being **love's witness**

The sudden laughter, with silence thereafter
With agreeable smiles of joy
A bond that's secure, and one that endures
That not even time can destroy

Coming in the clutch, with hospitalizations and such
And always making time
To enjoying late-night calls together
Leaving no thought behind

Through the patience of time, and nights asking 'why'
And the frustrating times of confusion
To the times of restoration and spiritual education
Confirming all doubts to be an illusion

Take it from this dark and tall, who's used to being a fly on the wall
That you both are the epitome of agape's existence
And because of beautiful people like you, so faithful and joyous and purely true
That I am honored to be **love's witness**

GOLD PLATE ON BACK OF PLAQUE

To Kody and Jessica Abbond:

Thank you for being true friends and a representation of God's love for each other and others who need to see. I have had nothing but joy being friends with you both individually, and seeing you both tie the knot puts my soul at peace.

I wish you all the best and pray that your love continues to flourish for each other and under God. Much Love!

Your Friend,
Kenneth Dean Johnson II
